

SYMFONY 4 CERTIFICATION ONLINE COACHING

The best way to become a Certified Symfony Developer is to study with its creators! Let's get you ready for the exam by studying together. We'll cover all the primary topics on the Symfony 4 exam. This workshop is ideal for those who already have an excellent level and want to test and reinforce their competences before taking the official certification exam.

Requirements: Master Symfony 4

Learning materials

SensioLabs University has designed the best Symfony training experience by combining in-class sessions and eLearning. In addition to training sessions, access **our eLearning platform** for 1 month to mix various learning practices, validate your skills, track your progress and stay in touch with your trainer throughout the program.

The course materials will be available within the personal space of each participant. SensioLabs trainers are Symfony certified and carry out continuous assessment in the training session. Computers are available to participants on request.

Learn Symfony with Symfony certified trainers and the SensioLabs University eLearning platform:

Program

Over three months, use our online platform and our e-learning sessions. You'll study the most important topics that appear on the exam.

- A daily test of 20 questions following the exam format,
- A competence acquiring plan based on the official Symfony documentation,
- Kata-style, directed exercises to help you acquire automatic development gestures,
- 12 training sessions of 1 ½ hours each via live streaming (total of 18 hrs. throughout the program) each Monday from 1 pm to 2:30 pm. These sessions will be recorded and accessible in each student's workspace.
- The following topics will be covered over the 12 sessions:

1 - Architecture
and FLEX 2 –
Routing
3 – Controllers
4 - HttpFoundation & HTTP Cache
5– PHP7 web security and
standardization 6 – Twig
7 - Dependency Injection
8 – Forms
9 – Security
10- Console &
Miscellaneous 11 -
Data Validation
12 - Automated tests

You can enter the program at any time

VCS Files

Symfony > Components > Finder

By default, the Finder ignores popular VCS files, what is the method to use them?

Choices

- ☐ `$finder->ignoreVCS(false);`
- ☐ `$finder->enableVCS();`
- ☐ `$finder->ignoreFiles(array('vcs' => false));`
- ☐ `$finder->enableVCSFiles();`
- ☐ `$finder->useTypes(array('vcs' => true));`

Submit answer

DAILY TESTS

- Test yourself once a day on a 20 question multiple choice quiz.
- Find a database of more than 1,200 questions on PHP, object-oriented programming, Doctrine, Twig...

SKILLS RADAR GRAPH

- Track your level on each theme and component of Symfony.
- Find your results from each test on the skills radar graph.
- Visualize the topics on which you still need to upgrade your skills.
