SYMFONY4 CERTIFICATION ONLINE COACHING WITH SENSIOLABS UNIVERSITY

Objectives:

The best way to become a Certified Symfony Developer is to study with its creators! Let's get you ready for the exam by studying together. We'll cover all the primary topics on the Symfony4 test. This workshop is ideal for those who already have an excellent level and want to test and reinforce their competences before taking the official certification exam.

Duration: 3 months

Price : 1 450€ HT per person

Code: SF4C6

Public: PHP web Developers

Requirements : Master Symfony 4

Over three months, use our online platform and our e-learning sessions. You'll study the most important topics that appear on the exam.

- A daily test of 20 questions following the exam format,
- A competence acquiring plan based on the official Symfony documentation,
- Kata-style, directed exercises to help you acquire automatic development gestures,
- 12 training sessions of 1 ½ hours each via live streaming (total of 18 hrs. throughout the program) each Monday from 1 pm to 2:30 pm. These sessions will be recorded and accessible in each student's workspace.
- The following topics will be covered over the 12 sessions:

- 1 - Architecture and FLEX
- 2 - Routing
- 3 - Controllers
- 4 - HttpFoundation & HTTP Cache
- 5 - PHP7 web security and standardization
- 6 - Twig
- 7 - Dependency Injection
- 8 - Forms
- 9 - Security
- 10 - Console & Miscellaneous
- 11 - Data Validation
- 12 - Automated tests

You can enter the program at any time!
